

M.Sc. candidate position
Evolutionary demography and conservation lab, Fanie Pelletier

Mating system and inbreeding avoidance in raccoon (*Procyon lotor*)

Suggested start: May or September 2014
Biology department of Université de Sherbrooke
A tax-free scholarship is available

Required qualities of the applicant:

- Knowledge of “basic” French (or a strong willingness to learn it)
- Autonomous, motivated, flexible and perseverant
- Able to work in groups for long periods and in good physical condition
- Interested to work on field for a period of 3-4 months per year
- Knowledge and interest for evolutionary ecology
- Assets: 1) Experience with the use of Arc GIS software
2) Eligible for NSERC or FQRNT fellowship

Interested candidates should send a CV, a brief statement of research interests and the e-mails of two referees to:

Fanie Pelletier (fanie.pelletier@usherbrooke.ca)

Deadline for applications: March 15, 2014
